

WAGENER

Pipi

Meeting the growing needs of the tiny home market

www.wagnerstoves.co.nz

Wagener *Pipi* Rural Woodburner

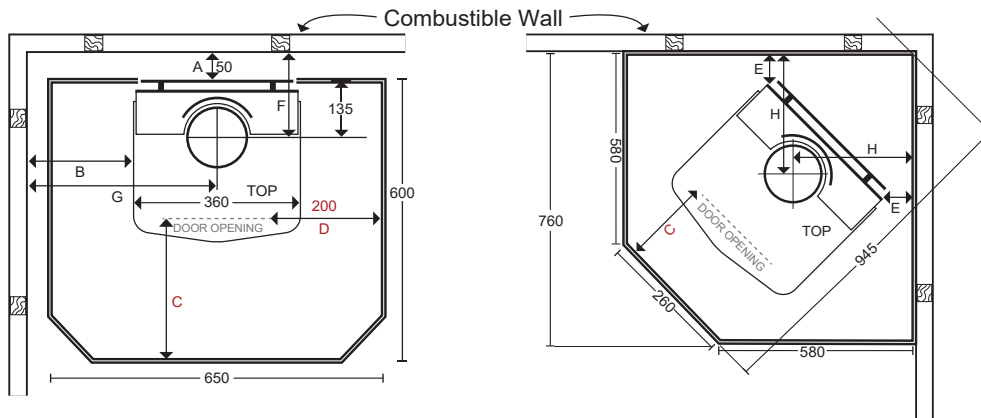

Introducing WAGENER *Pipi* the newest addition to the Wagener family of handcrafted solid fuel stoves and a smaller alternative to our very popular Wagener Sparky. *Pipi* offers a rustic look with a wider face and a cooking surface but is shallower in depth. His smaller heat output will suit those really small spaces in cabins, sleep-outs, mobile homes and tiny homes while still offering a good sized door glass to enjoy the prancing flames and our purpose designed slimline flue system compliments his compact design. The family team at Wagener Stoves are suitably impressed with this little guy's performance and happy to "buddy" him up with Sparky to meet the growing needs and demands of the tiny home market.

Features include:

- Solid 5mm steel construction
- Brick lined firebox
- Removable Baffle for cleaning
- High temp paint finish
- Colour option in shimmering rose
- Cooking surface
- Simple air control
- Log base
- Grate upstand
- Ash hearth floor protector

Installation Clearances

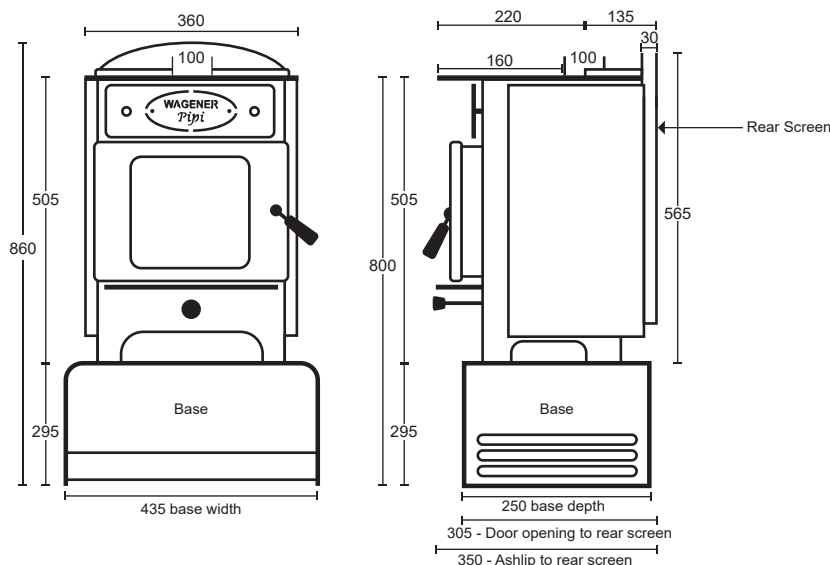

AS/NZ Standard 2918:2001

Wagener Pipi fitted on log base requires Ash Hearth Floor Protector Only (Minimum requirements above)

Minimum clearance to Combustible Surfaces (mm)	A	B	C	D	E	F	G	H
With stainless steel flue shield to unprotected wall	50	280	300	200	140	185	460	330
As above with sheet metal any type 0.5mm or thicker spaced 25mm off the wall.	26	84	Floor protection must extend under the stove and forward 300mm and 200mm either side of the door opening.		42	161	264	232
Sheet metal as above 2 sheets spaced 12mmx12mm	26	56			28	161	236	218

Other screening materials are available and clearance factors can be calculated to the AS/NZS 2918:2001. Please ask your retailer or contact Wagener Stoves if you need further advice.

Heat Output

Pipi generates a cosy 4kw heat output.
